

#1 - {!firstname}, here's a copy of your 30-page special report!

Hello {!firstname},

Jennifer Cano here from LifePath Unlimited. Thank you for visiting my site. Congratulations on being a person of action!

Here's a little background about me. My husband and I were attracted to this business for probably many of the same reasons you are being attracted right now. We had climbed the ladders of the so called "success" of Corporate America and found them less fulfilling than what had been promised us.

Even though we were pulling in a 6-figure income our lives seemed to be passing before us. We wanted to regain control of our life. We wanted to decide what we were going to spend our time on. We wanted to be a part of our children's lives.

We joined this business because we truly believe in the personal development principles that this program is built on. We immediately started to implement these personal growth principles into our lives. What a difference it makes to center your life on true principles. Focusing on having a positive mindset has had a tremendous impact on the fluidity of each day. We have been able to get organized and accomplish so much more than before.

For us, this was a way to get out of the corporate world and into a life that we design. One where we choose what our focus will be. It provides a way for us to strengthen each other and our three children.

I should be contacting you within 24 hours and when I call you, I am going to want to know a little bit about you, what you are doing right now, kind of what you are looking for and really why you are looking for a business to see if I can help you.

I appreciate your time, and thank you for visiting my website. I look forward to connecting with you.

#3 - {!firstname}, Are you serious about a Home Business?

Hello {!firstname},

It's Jennifer Cano here again, with LifePath Unlimited. I wanted to touch base with you again, because I know you are serious about finding a new home business, or you would not have responded in the first place and looked over my website.

I also know that sometimes the timing isn't exactly right for some people. I am hoping that you have had a chance to really review the website [here](#), and that you have just been busy with other things. Now that things may have slowed down for you a bit, I'd really like to get with you on the phone to help you determine if LPU is the right choice for you in a home business.

Of course, I totally understand that it may not be, but one thing I do know for sure is that until you have all the information you won't know if it's for you or not. There will be absolutely no pressure from me. I am not a sales person. I am just someone who enjoys helping people and can help you determine if this will work for you.

Until then, check out the website again and write down any specific questions you have, so I can answer each and every one of them.

Did you know that with LPU:

- The products are LIFE TRANSFORMATIONAL, and teach how to apply the Law of Attraction, and many other laws of the universe you may not know about.
- The Law of Attraction is a universal law whether you know about it or not. Its like gravity, whether you believe in it or not, it just is.
- By using the products yourself, your life will take such a dramatic turn that every person around you will want to know how you are creating such abundance and happiness. You won't have to do anything; they will be begging you to share your SECRET with them.
- The startup cost is so minimal that it is not even an issue
- You can have an incredible automatic email website that sends out emails to your prospects while you are away.
- You can get as many leads as you want, prospects that have responded to an online message and seen an online movie about the company. They are primed and waiting for you to call them.

{!firstname}, LPU is BIG, and I hope you will see that and want to talk about it, so you can determine if it is something you could jump into for your new home business.

I believe, if it is a fit for you, you will be attracted to it. That is why I never pressure anyone; the right people for this company will be naturally attracted to it. Give me a call at your earliest convenience, and let's talk about it. Maybe this is exactly what you have been searching for.

#8 - {!firstname}, Your 'Online Wealth Mastermind' Report...

Hi again {!firstname},

Today I'm going to be talking with you about some very crucial and fundamental principles to creating wealth within your life time, and I'm also going to focus specifically on using the Internet to do it.

Why is that? Simple...more wealth is being created right now online than ANY other sector of the world hands down. Just think about which companies have been on the front page of newspapers or magazines for how much success they have had recently.

Google, YouTube, MySpace, Facebook, and HUNDREDS of other sites people don't even hear about our literally creating BILLIONS of dollars quicker than just about any companies that have ever existed before.

YouTube broke RECORDS when it went from \$0 to \$1.65 Billion with a capital B in only a year and a half. Mark Zuckerberg just became the world's youngest BILLIONAIRE at age 23. And more stories like these are being created on a daily basis.

But what most people don't know, is that there are A LOT more people creating wealth within technology than just the poster boys. Last year alone, there were literally over 1,000 brand new millionaires that were created on the internet. In fact, there are literally an endless amount of ways that people can start creating more wealth for themselves working Completely from home and needing nothing more than this computer you see in front of you.

In this report, I'm going to begin to open your eyes to those possibilities, and share with you what I know best about how to start doing it.

You see, wealth creation is a multi part job in my perspective. I KNOW that no matter what medium you are creating wealth in...your MINDSET is always going to play a crucial role. That's why I see so many successful people who focus on developing THEMSELVES before they focus solely on creating wealth.

And the reason why is, when you focus on Learning and Growing as a human being and entrepreneur first...it becomes so much easier to take the action steps you need to create the wealth later on.

But if you are struggling with lots of limiting beliefs, or negative emotions, or destructive attitudes and thoughts...then how are you going to BELIEVE in yourself enough to go out and pursue your visions in life.

It takes a STRONG person to go after their goals and dreams...and that's why I advise all my new partners and clients to first focus on becoming STRONG. Then we can focus on the specific action steps you need to take to create wealth.

So what are some of those action steps? Well, it's actually simpler than most people think to start earning a full time income online. There are only 2 things success online comes down to:

1. Traffic
2. Conversion.

When you learn how to generate traffic to any website you choose...you can literally manifest hungry buyers for whatever you're offering at will.

When you learn how to 'Convert' those prospects into customers, business partners, or whatever else you want...you can literally create money at will.

That 2 part combo right there is how EVERY SINGLE website online makes its money. Traffic and conversion.

The neat thing is, there are literally MILLIONS of things you can promote, or businesses you can build, where those two key fundamentals come into play. Take me for example, I am building a business right now that pays me VERY lucrative commissions on all the sales I make, and business partners I bring in.

And this isn't like the old school MLM days you might know about already. This isn't me chasing around friends and family, or doing anything like that trying to get people interested in my business. This is me using REAL internet marketing principles to grow my business like a science and build huge income streams because of it.

For me, I just CAN'T take seriously the idea of working on ANYTHING that has an income ceiling.

If the work and energy I put in cannot make me as much money as I want to make...then i can't even fathom thinking about working on that project the rest of my life. What I LOVE about what I do now...is that there is literally NO income ceiling. The work I put in has the potential to pay me an ever increasing amount...with literally no end in site.

Thats what's so beautiful about running your own business and being an entrepreneur. And that's what I can show you more how to do of today. You see, when you decide you want MORE for yourself by going after your goals in life...there are specific action steps you can take everyday to make that happen.

When you have a coach, a mentor, and a trainer to guide you along each step of the way... it can save you THOUSANDS of dollars in time, energy, and mistakes that you would make trying to figure this all out on your own. That's why it's so important to have someone who can walk you through the whole process, and really be your guide to success.

If this is something that interests you {!firstname}, then you simply MUST check out what I have to offer you below:

[LifePath Unlimited](#) (the password is pass9word)

When you learn the advertising and marketing skills that I can teach you about growing a successful business...you can make an ENORMOUS amount of money with that one above.

In fact, it's shocking how easy it is to make \$30,000 a month in this industry once you have the PRINCIPLES down pat. But I can promise you this, when you learn how to REALLY excel as your own entrepreneur, it's easier for you to make \$30k a month than it is for most people to make \$3k. And I witness that with my own eyes every day.

So here's what I want you to do. I want you to check out the website below:

[LifePath Unlimited](#) (the password is pass9word)

I'm here to FIND the right people, who are READY for what I have to show them...then I'm looking to partner up and make BIG THINGS happen together. If you feel like you're ready, then I encourage you to give me a call so you can learn more soon.

#9 - Oh {!firstname}, When Will They Learn?

Hi {!firstname},

Do you know who I'm talking about? I'm talking about ALL the network marketers who still haven't figured out that **MARKETING** is what makes business "go round".

Let me ask you something...if you have the greatest product in the world and no one knows about it...are you going to make any money?

Pretty simple isn't it?

Yet what baffles me is how people say, "I really want to make \$10,000 a month in residual income, I'm really going to do it!"...

Then 3 weeks later they quit because they talked to 4 people and every one said no, and somehow they lost all their goals, hopes, and dreams of creating wealth for themselves.

Guess what?

I don't think like that. I don't act like that. And if I face an obstacle I overcome it. I make it a point to be on the cutting edge of technology, to know the most innovative marketing strategies as they are happening, and to use them in my business on a daily basis.

You need to start asking yourself some serious questions.

Like...Are you ready to be an entrepreneur or are you still just "thinking about it"? Do you really want to be an entrepreneur?

Are you ready to devote yourself to becoming a student of life...learning personal growth, marketing, and leadership?

Or are you just gonna sit in front of the TV for another few years numbing out the fact that you want more out of your life?

Now, you have to understand I don't really know if you would do that or not. I'm not even sure what you really want in life.

But I speak this way to show the difference between the two mentalities. One mentality will never be stopped from achieving it's goals.

The other will never even get started.

You have a choice here today...

You can choose to become the student, to THINK BIG, to act bigger, and align yourself with people who are on the cutting edge of this day and age.

Or you could continue to do whatever it is your already doing. Your call...

That little voice inside your head that's saying, "I have got to find out what this is all about and if it is all true...I HAVE to be a part of their team IMMEDIATELY."

Listen to that voice. It's trying to guide you in the right direction...

When are you going to stop listening to that inner critic and start following your dreams???

#10 - More Success Knowledge For You {!firstname}...

Hi {!firstname},

Jennifer Cano here...

You know, I can't help but notice how ALL the successful people have such similar qualities that they employ on a daily basis.

Today I'm going to give you a break on the whole "marketing" talk, which is extremely important. Instead I am going to focus on something else that is Equally powerful if not FAR more.

What's that you say? It's your Mindset...

But that word really doesn't describe it very well. You see, mindset means SO MANY different things.

It means what you think, what you feel, what you believe, what you identify with, what you take personal, what you judge, what you like, dislike...It basically means Who You Are.

Compile everything that makes you who you are and that is what I'm calling Mindset. So what is it about this group of ultra successful people that enables them to Create wealth in their lives? (and a lot of it)

It's HOW they think, feel, believe, and live their life that puts them in situations to create wealth, and motivates them to take the PROPER action to create wealth.

Wealth comes down to two things...

1. Getting the knowledge of how to create wealth
2. Taking action upon that knowledge.

Of course there are other factors involved; desire, motivation, etc. But truly ALL YOU NEED to create wealth is the knowledge of how to create it, and the ability to put that knowledge in action.

And therein lies the problem. Most people have neither.

They have their heads filled with so much garbage, and if they take action on that garbage they get no where and quit.

Or some people actually know what to do...and don't do it.

For whatever reason, 95% of the people who start their own business, with the intention of creating wealth, fail.

I'm pretty sick of that! Now, I can't force you to learn. I can't force you to take action. I can't control Who You Are.

But I CAN give you the knowledge you need to create wealth.

I CAN put the knowledge YOU NEED to market a super profitable business in your hand.

I can show you exactly how I am using internet marketing solutions in my business and generating more leads and business growth then I ever have before.

I can show you that...I'm serious. It's right here.

You see, when you TRULY understand how to market your business... there is NOTHING that you can't be successful at. Nothing.

Seriously {!firstname}, I am ONLY looking to work with people who are finally ready to create Freedom in their lives.

I want to work with people who will take the knowledge I give them and create wealth. I am positive person who cares and wants to help others. That's who I want to partner up with.

#12 - What's does it really mean to be a leader {!firstname}?

{!firstname},

Leadership is what it takes to make it big in this industry.

We all know that deep down. We know we will have to work on ourselves to be a person that others will gladly follow.

But what does it mean to be a leader? Well, lots of things. But it can be summed up like this.

A leader has TRUE value to offer others.

If you have real value to offer people they will come to you to get it. Everyone wants to know how to do things better, be better, and achieve more success. And they look to people

who have learned in some way what that is, and can share it with them.

Leadership starts with the intention that YOU WILL BE A LEADER.

That doesn't mean you need to be some fiery, well spoken, image of a typical leader....all it means is that you have real value to share with others, and you know how to teach it to them.

When you begin the process of educating yourself, you begin to build your own value. And the more value you have, the more value you can offer to other people. Hence the more people will be inclined to follow you.

And once you have reached an influential point where others respect you for what is between your head and will listen.... you create enormous network marketing organizations.

Don't you think it's pretty important to work on yourself all the time {!firstname}? Don't you think it's important to build YOUR OWN value, so you have more value to offer other people?

Well, if you want to make BIG money, have thousands of people follow you, and live a life of unlimited residual income, You CAN...If you take BEING a leader very seriously right now.

#13 - {!firstname}, Do You Know What Kind Of Team Succeeds?

{!firstname},

The type of team that succeeds is the type of team that has a game plan....and works together to make big things happen.

By game plan I mean a nuts and bolts system that gets rid of 95% of the problems most network marketers will ever face.... running out of prospects for their business.

By game plan I mean a marketing system that will educate, sift, and sort through all your interested prospects even while you're sleeping.

Get the details about the business that changed my life here:

#14 - {!firstname}, How You Can Get Rich Helping Other People?

Hi {!firstname},

Do you want to be successful in life? Seriously, do you?

Well guess what...it all comes down to one thing. It all comes down to how much value you are offering people.

Are you improving their lives? Are you making their life better or are you wasting their time?

That's it. That's the real deal. The people who truly give value and make other people's lives better, are going to THRIVE with their own business.

They will thrive.

While all the other people who are focused on "me, me, me, I need money, me, me, me" Are going to become entrepreneurial road kill.

Make no mistake, it is easier today to start a business than it ever has been before. You have MILLIONS of people that are rushing to be business owners, and it's making the market HIGHLY competitive. In fact, super competitive.

Only those who truly understand success, and give value will survive. Unfortunately, many will FAIL...

Jeez, here I go again telling people what they don't want to hear. I know I know, I apologize...but it's the truth. And you needed to hear it.

You see, I care about helping people like you. I want you to start developing the mindset RIGHT NOW, that is going to put you in the successful bracket of people.

I want you to start thinking how you can build your value, and in turn GIVE more value. Then thrive in your business because of it.

So here is what I'm going to do for you. I'm going to point you in a direction that truly changed the way I thought about business.

All of a sudden, I wasn't just a network marketer...I was building a multi 6 figure business of my own. I needed to start thinking like the people who have found true success and do the work THEY DO on a daily basis.

So I surrounded myself with 6 and 7 figure earners. People who not only created financial wealth but personal wealth as well. I joined a community of likeminded people who want to help others and who believe that true abundance includes time, money and fulfillment in many areas of your life.

I want to invite you to join this community too.
